SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

NOVEMBER 1946

This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which official inspection work is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at 5 cents each, or 25 cents a year (foreign, 45 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.

ANIMAL FOODS INSPECTION DIVISION ESTABLISHED

Canned foods prepared for dogs, cats, and other meat-eating animals may now receive Federal inspection, when packers request and pay for this service. The inspection, being made available at the request of industry representatives, includes supervision over sanitary conditions in the plant, the ingredients that go into the cans, accurate labeling, and various other steps of preparation.

Authority for the service is the Research and Marketing Act of 1946, enacted by Congress in August. The available inspection applies to "canned wet food for dogs, cats, and other carnivora," as distinguished from dry foods such as dog biscuits. The canned product must be "a normal maintenance food," containing at least 10 percent protein, 0.3 percent of calcium and phosphorus, respectively, and 0.15 milligram of thiamin, an essential vitamin. At least 30 percent of the product must be meat or meat byproduct. Vegetables, grains, or substances derived from them must be of good quality, sound and clean.

Besides containing the name and address of the packer, the label must give the ingredients in the product in the order of their predominance. The inspection number that the Department gives each plant must also appear on the label. Products that meet official requirements are to be marked with an inspection and certification stamp in the form of a keystone, a design prepared especially for the purpose.

The Bureau will administer this new inspection service through an Animal Foods Inspection Division, of which Dr. L. V. Hardy is head.

LAMBERT APPOINTED ADMINISTRATOR OF AGRICULTURAL RESEARCH ADMINISTRATION

Dr. W. V. Lambert, formerly Assistant Administrator, was appointed Administrator of the Agricultural Research Administration, effective November 1.

Dr. Lambert succeeds P. V. Cardon who, on the advice of his physician, requested a transfer to a position of less exacting administrative responsibilities. Mr. Cardon will become Special Assistant to the Chief of the Bureau of Plant Industry, Soils, and Agricultural Engineering.

EMPLOYEE RELATIONS

I. General

Cooperation between employer and employee is a basic requirement of good administration. A healthy, vigorous organization depends upon such cooperation in its human relationships, and in the relationships of employees with the public.

II. Policy

A. EMPLOYEE REQUESTS FOR INFORMATION

Employees or their representatives have the right at any time to obtain information with respect to their status, rights, privileges, welfare, and conditions of employment, as well as with respect to rules and regulations governing personnel administration in the Bureau and its appeal procedures. They are expected to secure such information through regular supervisory channels. Supervisory officials should comply with requests for information of this kind with reasonable promptness; and, if unable to comply, they should promptly refer the employees' requests to the Washington office.

B. INFORMAL DISCUSSIONS

Whenever employees desire to avail themselves of informal discussions with supervisory officials, they should feel free to use that means of making their views known, whether they be suggestions, problems, or grievances. Supervisors should promptly comply with employees' requests for informal discussions relative to their official duties and welfare, and employees should be treated with every consideration and courtesy during such discussions. The Bureau wants employees to give frank expression to their complaints. Supervisors, whenever possible, should adjust employees' grievances promptly and satisfactorily. The

Department of Agriculture has a procedure for the appealing of employees' grievances and all employees are privileged to use this procedure without reprisal.

C. EMPLOYEE ORGANIZATIONS AND REPRESENTATION

1. Employees have the right to join or refrain from joining any organization or association of employees, and no employee of this Bureau and no one seeking employment shall be required as a condition of employment, transfer, promotion, or retention in service to join or to refrain from joining any organization or association of employees.

2. Employees have the right to consult and confer with supervisory officials on their own behalf or to designate representatives of their own choice, including an organized group or association of Federal employees to act on their behalf for the same purpose. In the exercise of these rights, all employees should be free from any and all restraint, interference, coercion, or reprisal on the part of associates or supervisors.

3. There should be no discrimination against representatives of employees of the Bureau, nor should employees suffer discrimination because of membership or non-membership in any organization or association of employees.

D. CONDUCT

Reports of neglect of duty, misconduct, or commission of irregularities will be thoroughly investigated, and if true, may result in disciplinary action, each case to be judged on its merits. In cases where charges of misconduct, irregularities, or neglect of duty are made, employees concerned will be given full opportunity to answer such charges. The Bureau recognizes the principle of equal penalties for offenses of similar gravity.

E. EMPLOYEE RELATIONS WITH THE PUBLIC

Service to the public is the primary responsibility of every employee of the Bureau and Bureau personnel should conduct their work with this in mind. All employees should conduct themselves in such a manner as to create and maintain respect for the Department of Agriculture and the public service.

F. EMPLOYEE OBLIGATIONS TO AGRICULTURE

Employees are obligated to render full and effective service. Employment in the Department of Agriculture is not a right deriving from possession of a position, but from the rendering of such service both in quality and quantity as justifies continuance of employment. Industry, cooperation, and loyal adherence to established Department and Bureau objectives are expected of all employees. On the other hand, the Department and Bureau invite constructive criticism and suggestions for the improvement of its work from every employee.

III. Procedure for the Appeal of Grievances

Any complaint or grievance involving working conditions or status, or growing out of interpretation or application of rules and regulations governing personnel administration, unless otherwise provided for, where existing law or Department regulations permit of administrative discretion, may be presented and appealed by employees or their representatives in the manner prescribed in Section V of Secretary's Memorandum No. 753, Revision 2, dated March 5, 1943. A copy of the Secretary's Memorandum should be available to all employees of the Bureau of Animal Industry. If a copy is not available, communicate immediately with the Washington office.

IV. Responsibilities of Supervisory Officials

It is the responsibility of supervisory officials to carry out the policies announced in Paragraph II above, and adjust complaints and grievances whenever possible.

NEW PUBLICATIONS OF THE BUREAU

The Bureau keeps no mailing list for sending publications to individual employees, but sends copies to officers in charge of stations and offices. These publications should be regarded as notification copies. So far as possible additional copies will be furnished on request.
